

CAT6 Patch Cord, S/FTP, LSZH, Lifetime Warranty, orange

**DESCRIPTION**

Wirewin® patch cables of category 6 correspond to the values according to ISO / IEC 11801 Ed.2. This allows a data transfer of 1 GBit / s. Category 6 is specified with 250MHz. The cable for these patch cables is double shielded. Each pair is in its own foil shielding and above is again a braid shielding. This structure is often referred to as PIMF (pairs in metal foil / pairs in metal foil) or as S / FTP. The jacket of these cables is made of halogen-free material and therefore is flame-resistant. Red Category 6 RJ45 connector with gold-plated contacts surrounded by a special Wirewin® bend sleeve to protect the latch while allowing easy pushing of the latch. On the underside of the spout is a length imprint. All Wirewin® KAT6 patch cables are equipped with a lifetime warranty!
