

10 Gigabit SFP+ 10GBase-SR Multimode

DESCRIPTION

Lightwin High Quality Singlemode SFP+ with lifetime guarantee and important advantages compared to alternative no name modules.

Lightwin SFP+ have a special chip installed and, in combination with the specially selected laser, convince with a significantly longer service life. All Lightwin SFP+ models support DDM technology and have an extended temperature range for industrial grade applications.

FEATURES

- Transmission: Multimode
- Data rate: 10Gb/s
- Wavelength:
- TX: 850nm
- Distance: 300m OM3
- Distance: 400m OM4
- Connector: LC
- High Quality modules
- Industrial Grade
- 100% tested

10 Gigabit SFP+ 10GBase-SR Multimode

PRODUCT FEATURES

Connector	LC
Coding	CISCO / HP / UNI / ZTE
Data Rate	10 Gb/s
Distance	300m/400m
Product Family	10 Gigabit SFP+
TX Wavelength	850 nm
Transmission	Multimode

PRODUCT NUMBER		EAN Code
